Before practicing Shambhavi Mahamudra, ensure: - You are in good health; consult a physician if you have underlying health conditions. - Find a quiet, clean, and comfortable space free from distractions. - Wear loose, comfortable clothing to facilitate smooth breathing. - Maintain a calm mental state; avoid practicing during extreme fatigue or emotional distress.

Guidance and Initiation

- It is highly recommended to learn the kriya from a qualified instructor, preferably during a structured program like the Inner Engineering course offered by Isha Foundation. - Initiation involves a sacred process where the teacher transmits the necessary energy and instructions. - Self-practice without proper guidance may lead to discomfort or ineffective results.

The Step-by-Step Practice of Shambhavi Mahamudra Kriya

The practice comprises several stages, each with specific actions and focus points. It is usually practiced twice daily for optimal benefits—morning and evening.

Preparation Phase

1. Sit Comfortably: Choose a seated posture—cross-legged on the floor (Sukhasana, Padmasana, or Siddhasana) or on a chair with feet flat on the ground. Keep the spine erect, shoulders relaxed, and hands resting on the thighs or knees. 2. Close Your Eyes Gently: Begin with a few deep, relaxed breaths to settle the mind and body. 3. Set an Intention: Mentally affirm your purpose for practice — inner peace, clarity, or spiritual growth.

Step 1: Breath Awareness and Relaxation

- Focus on the natural flow of breath. - Observe the inhale and exhale without trying to control them. -

Allow the body to relax more deeply with each breath. - This helps to calm the nervous system and prepare for energy activation.

Step 2: Focus on the Third Eye

- Gently shift your attention to the point between the eyebrows—known as the Ajna Chakra or the third eye. - Keep the eyes closed, but focus inwardly on this center. - Visualize a point of light or a subtle energy at this location. - Maintain awareness here throughout the kriya.

Step 3: Breath Regulation and Inner Activation

- Begin a specific breathing pattern as instructed by your teacher: - Inhalation: Deep, slow, and through the nose. - Retention: Hold the breath gently after inhalation for a count (as guided). - Exhalation: Slow, complete, and through the nose. - Retention after exhalation: Optional, depending on the tradition and guidance. - The goal is to synchronize breath with awareness on the third eye, stimulating energy centers.

Step 4: Chanting or Mantra (Optional)

- Some practices incorporate silent or audible mantra chanting, such as "Om" or specific seed sounds, to deepen concentration. - This can help in harmonizing the mind and focusing energy inward.

Step 5: Visualization and Energy Movement

- Visualize a radiant light or energy rising from the base of the spine to the third eye during inhalation. - During exhalation, imagine releasing tension and negativity. - Feel the energy centers activating and balancing.

Step 6: The Seal — Maha Mudra

- After completing the breath-awareness phase, gently seal the practice with a mudra: - Place the hands over the eyes or rest the palms on the knees. - Some practitioners place the right hand over the left, with thumbs gently touching. - Focus on the silence and stillness that follows, allowing the energy to settle.

Step 7: Closing the Practice

- Slowly bring awareness back to the surroundings. - Gently open the eyes, maintaining the calmness. - Take a few moments to observe the sensations and mental state post-practice.

Duration and Frequency

- Typically, the practice lasts around 21 minutes. - It’s recommended to practice twice daily—morning and evening—for sustained benefits. - Consistency is key; regular practice deepens the effects and stabilizes the energy flow.

Precautions and Tips for Effective Practice

- Avoid practicing immediately after heavy meals. - Practice in a serene environment, free from disturbances. - If experiencing discomfort or dizziness, pause and consult your instructor. - Maintain a gentle, relaxed approach—forceful effort can be counterproductive. - Keep a journal of your experiences to track progress and insights.

Common Challenges and How to Overcome Them

- Restlessness or wandering mind: Use gentle focus on the third eye; don't force concentration. - Drowsiness: Practice at a time when you are alert; sit upright and avoid practicing in a sleepy state. - Physical discomfort: Adjust your seating; ensure comfort and spinal alignment. - Inconsistent practice: Set a routine; integrate the kriya into your daily schedule.
