Origins and Development of the Encyclopedia

Historical Context and Creation

Edited by Paul Edwards, a distinguished philosopher and scholar, the project was initiated in the early 1960s, culminating in its first edition published in 1967 by Macmillan Publishers. Edwards envisioned an encyclopedia that would bridge the gap between technical scholarly works and accessible overviews, making philosophy more accessible without sacrificing depth and rigor. The undertaking was ambitious: assembling a team of hundreds of contributors—experts in various subfields of philosophy—who would provide authoritative entries. Edwards' leadership was instrumental in shaping the scope and editorial standards, emphasizing clarity, scholarly accuracy, and breadth.

Subsequent Editions and Updates

Recognizing the dynamic nature of philosophy, the encyclopedia has undergone multiple editions and supplements. The second edition, published in 1996, expanded on the first, incorporating new developments, emerging philosophical movements, and increased coverage of non-Western philosophies.
