The customization system is comprehensive, offering a vast array of building options—from residential homes and commercial shops to special landmarks and decorative elements. The game's combo system encourages mixing and matching these assets to create visually appealing and efficient layouts. Resource Management Central to the gameplay is resource management, where players must efficiently handle various currencies and materials: - Money: The primary currency used for constructing buildings and upgrades. - Population: A measure of town growth, directly impacting income and development potential. - Materials: Specialized resources required for certain buildings and upgrades. - Energy: Some buildings or features require energy points, which regenerate over time or through specific assets.
